Are You Glad to
Get Your Shoes
Off?

At the end of the day do you feel that your shoes have helped or hurt you? Do you look forward to the relief of getting them off?

Then you should wear Cantilever Shoes. They help you to walk or stand on your feet for long hours without tiring.

In Cantilever Shoes your feet look well and feel comfortable. You stand and walk correctly poised. Ordinary shoes, which turn the toes outward, throw the weight on the inside of the foot where the arch is weakest.

But the Cantilever Shoe has a natural inner sole line. The toes point straight ahead in their proper position. The weight is distributed without strain over the heel, the ball and the outside of the foot.

Cantilever Shoes have a natural inner sole line. The toes point straight ahead in their proper position. The weight is distributed without strain over the heel, the ball and the outside of the foot.

They come in different heights of heels to suit your individual requirements. You will like the looks of Cantilever Shoes, and you will enjoy their extraordinary comfort.

HAMMOND
Grace Street at First**Keeps Hair In Curl On
Hot or Windy Days**

Here's a hair curling secret that is decidedly "worth while." Just apply a little liquid silmerine before doing up the hair, using a clean tooth brush for the purpose, drawing this down the hair from crown to tips. In three days you will have a natural curl and wave as you want for. The waviness will look so natural no one will guess it was artificially acquired. And it will last even so long, regardless of heat, wind or dampness.

You can obtain liquid silmerine at any drug store and a few ounces will last a long time. It is neither sticky nor greasy and does not stain clothes. It is also because of also serving as a beneficial dressing, keeping the hair soft, silky and lustrous.—Advertisement.
